

# Ninth International Kidney Cancer Symposium

---

## Friday, October 1, 2010

		1:00	Eugene P. Schonfeld and Andrew C. Novick Awards
7:00 AM	Registration and Continental Breakfast		
8:00	Welcome		Controversies in the Modern Management of Metastatic RCC Patients
	Management of Small Renal Masses and Localized Renal Cell Carcinoma	2:00	Case Presentation
8:15	Case Presentation	2:15	Switching to mTOR Inhibition vs. Maintaining VEGF Inhibition After VEGF Therapy Failure PRO CON
8:25	Renal Biopsy has a Role in the Management of SRMs PRO CON	2:30	What Combinations are Suitable for Phase III Testing?
8:55	Renal Function Relevant to Localized RCC	2:45	Are We Dosing TKIs Correctly?
9:05	Innovative Minimally Invasive and Non Invasive Approaches	3:00	COFFEE BREAK
		3:30	Drugs in the RCC Pipeline
9:20	Tumor Thrombectomy		
		5:00	Adjourn
9:30	The Adrenal Gland Must be Removed at the Time of Radical Nephrectomy	6:00	Reception
10:00	Neoadjuvant Therapy is Appropriate for Localized RCC PRO CON		
10:30	COFFEE BREAK		
	Localized Approaches in the Management of Metastatic Disease		
10:45	Case Presentation		International Kidney Cancer Working Group Prognostic Factor Analysis: Final Report
11:00	What is the Most Appropriate Local Treatment for Bone Metastases? Thermal Ablation Stereotactic XRT	8:15	Novel Immune Targets/Mechanisms
		8:35	Improvements in Cytokine Based Immunotherapy; SELECT / Bev/IL-2 data
11:20	The Current Role of Metastasectomy in RCC	8:50	Vaccines – why have they failed and how can we be smarter going forward?
11:30	Clinical Trials are Needed to Define the Current Role of Debulking Nephrectomy PRO CON	9:05	Targeted Immunotherapy for RCC
12:00 PM	LUNCH AND POSTER SESSION	9:20	Immunomodulatory Effects of TKIs

## Saturday, October 2, 2010

7:00 AM Registration and Continental Breakfast

8:00 Welcome

The Evolution of Immunotherapy in  
Metastatic RCC

International Kidney Cancer Working Group  
Prognostic Factor Analysis: Final Report

8:15 Novel Immune Targets/Mechanisms

8:35 Improvements in Cytokine Based Immunotherapy;  
SELECT / Bev/IL-2 data

8:50 Vaccines – why have they failed and how can we  
be smarter going forward?

9:05 Targeted Immunotherapy for RCC

9:20 Immunomodulatory Effects of TKIs

# Ninth International Kidney Cancer Symposium

---

- 9:45 COFFEE BREAK
- VEGF Inhibitor Resistance: New Insights and Novel Therapies**
- 10:00 Current Data and Ongoing Trials in VEGF Therapy Resistant Patients
- 10:15 IL-8 as a Mediator of Sunitinib Resistance
- 10:30 Mechanisms of VEGF Resistance
- 10:45 Aiming Upstream from VEGF: HIF as a Potential Therapeutic Target
- Toxicity Issues in the Management of RCC Patients**
- 11:00 Cardiac Issues
- 11:15 Dermatologic
- 11:30 Management of Hypertension
- 11:45 Nursing Issues in Toxicity Management
- 12:00 LUNCH AND POSTER SESSION
- 1:00 Expert Panel on Prioritizing RCC Research
- 2:00 Invited Abstracts
- 3:00 Adjourn
