

The KCA's Resource Toolbox

These **KCA educational tools** can be used throughout your kidney cancer experience to make your diagnosis and treatment easier to understand. Scan each QR code to learn more.

Clinical Trial Finder

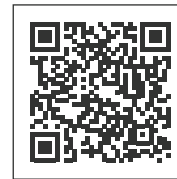

Clinical trials are essential to advance kidney cancer care. Using the KCA's Clinical Trial Finder, you can search for clinical trials you may be eligible for. Be sure to talk with your doctor about any clinical trials you find using the tool.

Treatment Center Finder

To receive the best care possible after a kidney cancer diagnosis, finding a doctor is the most important task. The KCA's Treatment Center Finder can help you find doctors nearby, in your region, or across the country. Types of doctors included in the Finder are:

- Urologists and surgeons
- Medical oncologists

Patient Video Library

Hear from kidney cancer experts answering common questions asked by patients and caregivers. Some topics include:

- Types of kidney cancer
- Treatment options
- Clinical trials
- Side effect management
- Psychosocial support

Questions to Ask Your Doctor

Take an active role by asking questions when you meet with your cancer care team. Times when you may want to ask questions include:

- When you're told you have kidney cancer
- Deciding on a treatment plan
- During treatment
- After treatment

Don't go through kidney cancer alone: these **KCA initiatives** connect you to resources and support in the kidney cancer community. Scan each QR code to learn more.

Support Groups

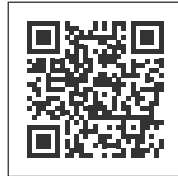

Join one of the KCA's monthly virtual support groups as we learn and lift each other through conversation, shared experiences, guest speakers, resource sharing, and friendship making.

→ **Patient Perspectives**

is open to patients

→ **Caregiver Connections**

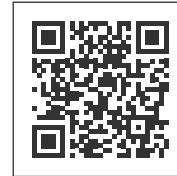

is open to caregivers, friends, and family members

Mentor Program

The KCA has partnered with **Imerman Angels** to bring peer mentoring to the kidney cancer community.

→ Share your experiences one-on-one with another patient, caregiver, or family member affected by kidney cancer.

Patient Navigator Program

Patients, caregivers, family members, and health care providers can contact the KCA's Patient Liaison to learn more about support services, financial assistance, and many more resources.

Online Support Community

Find others in the kidney cancer community by joining the KCA's online support community at **Smart Patients**. Ask questions and give support to others who can learn from you.

Support and Empower • Educate • Research • Advocate
